

NAIL TECHNICIAN COURSES

Our program of nail beautification and artistry will train students in areas of the application of artificial nails such as acrylics, sculptured nails and nail art, along with nail tips and nail wrapping, manicuring and pedicuring.

Students will also learn methods of sanitation, personal ethics, salon management and customer service and client relations.

This complete program will take students through human body systems with a balanced focus on muscular structure and function, anatomy, multiple massage modalities, cosmetology, aesthetics, nail beautification, hygiene and artistry, as well as career planning, client retention and preparation to pass the Certification Exam.

Professionalism is achieved through pride, competency and efficiency.
