

# FACIAL ENHANCEMENTS

## **Collagen Boost**

A naturally occurring protein, collagen is best known for plumping and firming the skin.

## **Eye Lift Treatment**

Especially designed for the delicate eye area, this treatment uses extremely gentle enzymes, a lifting massage, and peptide technology to firm and hydrate.

One of our wonderful non-surgical facelift alternatives.

## **Microdermabrasion**

This gentle resurfacing and deep-pore cleansing helps restore sun-damaged skin, as well as lessen dark spots and scars.

A revolutionary exfoliation treatment that gently polishes the skin helping the skin to rejuvenate, smooth and improve imperfections.

This procedure has been proven safe and effective for the treatment of minimizing fine lines, wrinkles, sun-damaged skin, acne scarring, and superficial age spots.

## **Power Peel**

Tailored to your specific skin needs, a GNY Spa esthetician will use GNY proprietary Skin Enzyme to help remove dead skin cells and promote your skin's natural rate of cellular turnover.

Results from this peel include an increase in the production of collagen and elastin fibers as well as, a reduction in the appearance of fine lines and wrinkles, improved skin tone, texture, color, and elasticity.

You can return to work and play immediately following the procedure.

## **Micro-Current Eye Treatment**

Using the latest in muscle stimulation technology, a micro-current eases the tight facial muscles around the eyes to produce a refreshed and lifted look that's almost

the effect of a facelift without surgery.

Also offered as a stand-alone 25-minute treatment with a cleanse for extra charge.
